UR FOOT
2017 GEAR LIST
ALLEGANY

NOTES ON HOW TO PACK

- Your personal gear does not have to be high-tech; just make sure to minimize the amount of cotton material. *Cotton takes a long time to dry should it become wet.* This makes for a very unhappy camper!
- Be prepared for all kinds of weather!
- Group gear (*i.e. tents, stoves, water filters, etc*) will be provided for each crew.

We understand you may not have all of the listed gear. Don't let this stop you from applying! Gear can be rented from the campus outdoors club and the local EMS store. However, unless otherwise stated, the items are required and will not be provided by UR FOOT.
