Women in Engineering Lunch Discussion

MONTHLY SERIES

Join us for a lunch discussion with Dr. Alexis Vogt

Friday, October 28 2011
12:00 PM - 1:00 PM
108 Goergen

Alexis KS Vogt, PhD is an Optical Design Engineer for Bausch + Lomb. She was invited to join the Lens Design department in January 2008. Her primary duties involve designing and developing innovative multifocal contact lenses and leading the contact lens competitive analysis project.

Dr. Vogt received her Doctor of Philosophy degree in Optics from the Institute of Optics at the University of Rochester where she conducted her research on stress-engineered optical elements under the guidance of Professor Thomas G. Brown. In addition to her research publications, Dr. Vogt co-authored the definitions of “light” and “polarization” for The World Book Encyclopedia. She dedicates time to youth outreach and has been involved with coordinating and presenting optics demonstrations to children and educators both within the Rochester community and internationally.

Brown bag lunch: bring your own lunch and join in the discussion! Topics of discussion will include career options and job search advice.

All faculty and students (graduate and undergraduate) are welcome!
